All Utility rates are as of June 1, 2012. Energy Plus rates are for first-time customers starting service in June 2012 and apply to your first month of service only. The initial rate that applies to your first month of service with Energy Plus will be FOR ELECTRIC, listed in the Rate section of the Terms of Service in your Welcome Confirmation (letter or email), and FOR NATURAL GAS: up to 10% lower than your utility's applicable RS/RSG rate in the month you begin service with Energy Plus. The Energy Plus rate is variable and therefore subject to change each billing cycle. Current and historical rates should not be taken as a guarantee of future rates and Energy Plus makes no warranty, express or implied, regarding future savings.
