You will receive an introductory natural gas supply price of \$0.52000 per therm for your first 3 billing cycles with us. After the introductory period expires, your prices with us will be variable. We will determine the variable supply price at our discretion based on many different factors, which may include competitive prices, industry charges we are responsible for, applicable state and local taxes, profit margins, or other business conditions. For your reference, our natural gas charges include natural gas supply and transportation charges, but they do not include any tax, utility distribution charges, or other utility fees or charges. Our current and historical prices are not an indicator of our future prices, and we do not guarantee any savings. Our prices may be higher than your utility's supply rate.
<b>Applicable Fees</b>	

	<p>We do not charge any fee to switch, enroll, or cancel early. If you are currently in a contract with another natural gas supplier, the request to switch you to our service will automatically cancel your service with the other energy supplier. You are responsible for any penalties the other natural gas supplier may charge.</p> <p>Cancellation may take up to two billing cycles, depending on your utility company's time frame to process our request.</p>
<p><b>Environmental Information</b></p>	<p>If you are enrolling in a natural gas plan with carbon offsets, NRG Home ensures that you are offsetting the estimated carbon dioxide (CO2) emissions associated with the stated percentage of your natural gas usage through the purchase of carbon offsets under one or more third-party carbon offset standards.</p>
