TERMS OF SERVICE FOR RESIDENTIAL NATURAL GAS SUPPLY

This document is a contract between us, Green Mountain Energy Company, and you that allows us to switch your natural gas account(s) to our service. We will begin supplying your natural gas under this contract, but your utility will continue to be responsible for delivering your gas and sending you a bill for both of our services. Our business address is 804 Carnegie Center Dr, Princeton, NJ 08540, and our mailing address is below.

Important Information	
Variable Current Rate	We will determine the variable supply price in our discretion based on many different factors, which may include competitive prices, industry charges we are responsible for, applicable state and local taxes, profit margins, or other business conditions. You'll receive a promotional natural gas supply price of \$0.45000 per therm for your first 3 bill(s) and your price will be variable after that.
Price for Your Natural Gas	The variable supply price can change each month. For your reference, our natural gas prices include generation and transmission charges, but they do not include any utility distribution charges or other utility fee or charge. For the current rate and a one year price history, please visit https://www.greenmountainenergy.com/customer-service-center/energy-questions-faq/illinois-faqs or call 1-800-274-5289. Our current and historical prices are not an indicator of our future prices, and we do not guarantee any savings. Variable. The variable rate may go up or down, and the rate may be higher than the Gas Utility's Price to Compare ("PTC") during any given period. No matter what, we will not increase your variable price in any given month by more than 30% from the prior month's supply price.
Length of Your Commitment	This contract has no minimum term. We will begin providing service to you after your utility processes our request to switch your service. Our service will continue until either of us cancels the contract.
Product Name	Carbon Conscious plan: The origin, physical content, and emissions characteristics of the natural gas delivered to your home will not change. However, Green Mountain ensures that you are offsetting the estimated carbon dioxide (CO₂) emissions associated with 100% of your natural gas usage by purchasing carbon offsets under one or more third-party carbon offset standards.
Your Right to Cancel	Once service has started, you may cancel by contacting us. It may take one or two billing cycles before the cancellation is finalized, depending on your utility's timeframes. The effective date is usually the next date that your meter is read after the utility has processed our request to cancel your service with us. You have a right to terminate your agreements with alternative gas suppliers at any time without any termination fees or penalties. If you do cancel this contract, you may forfeit some of the rewards that we describe in your Welcome Confirmation, and you will be responsible for unpaid balances as of the cancellation date.
Applicable Fees	None.
Your Right to Rescind	You may rescind this contract by contacting us or the gas utility within 10 business days after the date on the gas utility's written notice to you confirming the switch. You may contact us by phone or email address listed below, Nicor Gas at 888-642-6748, or People's Gas at 866-556-6001.
About Your Service	Green Mountain Energy Company is an independent seller of natural gas certified by the Illinois Commerce Commission. Green Mountain Energy Company is not representing, endorsed by, or acting on behalf of, a utility or a utility program, a consumer group or consumer group program, or a governmental body or program of a governmental body. The gas utility remains responsible for the delivery of natural gas to your premises and will continue to respond to any service calls and emergencies. You will receive written notification from the gas utility confirming a switch.

Electricity is the product of a mix of generation energy sources that is delivered over a system of wires. You will not have electricity from a specific generation facility delivered directly to your service address, but Green Mountain ensures that the applicable percentage of your electricity usage is matched by the generation of energy from renewable resources on an annual basis. Green Mountain does so by purchasing and retiring 'renewable energy attributes' or 'renewable energy certificates' representing the environmental attributes associated with the applicable amount of renewable energy generation from the area specified for your product. Your purchase helps support the development and operation of

renewable resources in the areas specified by your product. Green Mountain may take up to three months following the close of a calendar year to make up any deficiency in the renewable resource content for your product.

NATURAL GAS

Carbon Conscious plan: By enrolling in Carbon Conscious plan, the origin, physical content, and emissions characteristics of the natural gas delivered to your home will not change. However, Green Mountain ensures that you are offsetting the estimated carbon dioxide (CO2) emissions associated with the stated percentage of your natural gas usage by purchasing carbon offsets under one or more third-party carbon offset standards. Under these standards, an offset credit is generated for each ton of carbon dioxide equivalent that is reduced or removed as part of a verified greenhouse gas reduction project.

Offsetting one ton of carbon with a carbon credit means there will be one less ton of carbon dioxide in the global atmosphere than there would have been. Carbon Conscious gas is not intended to address any other environmental impact of natural gas usage, including emissions related to the extraction, storage, or delivery of natural gas.

Green Mountain Energy™ Sun Club™

If at some future date there is a change in any law, rule, regulation, tariff, or regulatory structure ("Regulatory Change") which impacts any term, condition or provision of this contract including, but not limited to price, we shall have the right to modify this contract to reflect such Regulatory Change (including by adjusting the price to reflect any increase in our costs as result of such Regulatory Change) by providing 30 days' written notice of such modification to you, at which time the change will take effect automatically unless you have contacted us to cancel the contract.
